Experience

Frontend Developer Internship | Certificate   Aug 2023 - Nov 2023
Frontend Simplified

- Transformed a completely static HTML, CSS, JavaScript and React single page application into an interactive user interface using animations, transitions and carousels
- Processed API requests with Axios to dynamically represent data from a cloud server and represented it through skeleton loading states, pagination and dynamic routing
- Utilized Git version control and the GitHub interface to work and thrive in a virtual and collaborative team environment

Freelance Frontend Developer   May 2023 - Current
Self Employed

- Delivered 3 professional websites using HTML5, CSS3 (+ SCSS, BEM), JavaScript and React best practises
- Improved website performance by compressing, caching and lazy loading images and components
- Included SEO, responsive, multi-platform and hosting support, enabling their website to be used by any browser or device in the world

Projects

Personal Website | Website | GitHub
- Website that gives a brief introduction as well as shows off previous projects(e.g. Functional modal integration)

Twitter Clone | Website | GitHub
- Developed a social media app with typescript functionality (e.g. Posting Tweets, Commenting, Sharing, Messaging)

Newsletter | Website | GitHub
- A basic newsletter app with full react functionality using best practices(e.g. Fade-in effects using AOS, connecting emails to mailchimp API)

Netflix Clone | Website | GitHub
- A clone of the popular streaming website Netflix made with typescript functionality(e.g. Full login functionality, movie API integration)

Internship Website | Website | GitHub
- An audiobook website that allows user to login, and subscribe to and listen to premium audio books (e.g. stripe payment integration, firebase integration, login and signup modals)
